Holding things together.

Erich Baumeister GmbH:
Your partner for professional bundling, finishing and strapping.

Whatever you want to bind and tie together, we have the right products and solutions. Our experience with the corresponding materials and technologies stretches back to 1964, giving us superior knowledge that is used by customers worldwide for the optimisation of their working processes. As a family business founded by Erich and Renate Baumeister, we combine traditional values, such as reliability and continuity, with innovative strength and individuality. The result is an extensive range of standard and special solutions that sets standards throughout the industry.

The following pages provide an overview of our current products. Should you require additional, personalised information, please get in touch with us directly.

Textile Loops

For the stylish refinement of high-quality products.

Textile Loops, Butcher's String, and Pre-tied Elastic Loops offer attractive alternatives to conventional elastic bands. Their high-strength, UV resistance and appealing look make them suitable for a broad range of uses, particularly in the food sector as well as beyond. Our Pre-tied Loops are perfect for attaching paper and fabric covers to jam or bottling jars, emphasising the exclusive look of your finished product.

Our Textile Loops are also great for conveniently and securely bundling electrical cables. The potential is virtually unlimited. Together with our customers we are constantly developing new applications for our Textile Loops and Pre-tied Loops.

Our full range can be found in our online shop.

www.erichbaumeister.com

Handmade Pre-tied Loops make your products stand out from the crowd.

The right Textile Loop for all your needs.

Our Textile Loops are also suitable for attaching tags.

Everything safely in hand – for consumers too.

Textile Loops for food

Securely tied with an appetising look.

Our Butcher's String offers a simple and secure way of tying and packaging a wide variety of foods and can be supplied to meet your individual requirements in terms of colour, length and material. We produce specialist certified Butcher's String for the food sector, made from heat-proof Elastic String which is approved for direct contact with foodstuffs; useful for meat products such as joints, roulades as well as many other delicate food items.

For the specialist needs of the meat industry we offer pre-tied poultry loops which simplify and economise further processing. Coloured Textile Loops are available on request.

Our full range can be found in our online shop.

www.erichbaumeister.com

Fast, automatic tying with our ADT String-Tying Machine (page 20) and appropriate Elastic String (page 14).

Clip Loops

Flexible, customised packaging aids.

We manufacture your customised Clip Loops from Elastic String in the colour and length of your choice complete with a brass or tinned brass clip. The reliably high-quality finish which prevents the ends from fraying is achieved by means of a heat-cut system. We also heat-cut elastic string to produce lengths of Cut String. Our Cross Loops can be used not only to hold piles of paper, exercise books and documents together; they also combine high stability and an attractive look when tying up and decorating gifts. If desired, we can produce your Cross Loops with a secure seal that can be engraved with letters.

Additionally, our Labelling Service offers diverse opportunities for your individual customisation: we provide your labels, brochures and bookmarks with elastic or non-elastic string, joined with a metal clip.

Our full range can be found in our online shop.

www.erichbaumeister.com

An array of colours for an individual look.

Perfect solutions for a "homemade" look.

Easy, quick and secure: bunching products together with Elastic Bands.

Rubber Bands

All-round resilience and security.

We offer a large selection of Rubber Bands made from natural rubber in a variety of colours, dimensions, qualities and rubber ratios. They are manufactured from high-quality, sustainably produced rubber that is non-toxic, environmentally friendly and even compostable. This makes them particularly suitable for horticultural applications, amongst others.

Our range also includes Pallet Bands for securing boxes on pallets. On request, we can make Pallet Tension Bands from rubber strapping in your required dimensions. We would be happy to provide you with a quote.

Our full range can be found in our online shop.

www.erichbaumeister.com

Pallet Tension Straps help to secure boxed goods.

Elastomer Bands

Elastic bands with a colourful touch.

Are you looking for elastic bands with a decorative aspect that catches the eye – not merely dull red, white or grey? Our Elastomer Bands satisfy this requirement perfectly, featuring bright colours, individual widths and custom dimensions.

Their composition makes Elastomer Bands highly UV- and water-resistant, robust and impervious to most chemicals. Their colouring is harmless and makes for a visual highlight. They can be used in a very wide variety of applications – from tensioning, closing, bunching and even cooking to packaging, decorating and setting special accents.

Our full range can be found in our online shop.

Customised colours and dimensions.

Elastomer Bands keep things together that belong together whilst adding colourful accents.

Automatic tying with ADT String-Tying Machine (page 20).

Elastic String

Optimal material for all requirements.

We offer a very wide selection of Elastic String in an array of colour made from a broad range of materials using a variety of manufacturing techniques. Invariably you benefit from an optimal price-performance ratio. Our range includes Elastic String, Butcher's String, Braided Elastic Cord and Elastic Thread. High-Performance Yarn for use with our String-Tying Machines are supplied with a polypropylene covering.

For use with String-Tying Machines we supply technical rubber threads with various textile coverings and stretch characteristics.

Our full range can be found in our online shop.

www.erichbaumeister.com

Non-fraying cut ends.

Extensive range of materials and colours.

Bungee Cords

For professionalism and simplicity everywhere.

We offer a variety of Bungee Cords and Bungee Cord Loops for reliable and resilient securing and fastening solutions. We also supply associated accessories from the brands MONOFLEX, MULTIFLEX and ECOFLEX. All Bungee Cords are made from material of an excellent quality and withstand strong loads. Their durable coating and high weather- and lightresistant properties make them extremely durable – even when subjected to industrial use.

We offer products for a wide variety of requirements – for example in relation to abrasion, breaking force and stiffness. Our Bungee Cords provide you with security wherever and whenever.

Our full range can be found in our online shop.

www.erichbaumeister.com

Customised strengths, materials and colours. Available with branded accessories on request.

Visible and tangible high-quality material.

Reliable Bungee Cords for professional use.

Self-adhesive Seals: easy positioning and a strong impression.

Self-adhesive Seals

Small stickers with a big impact.

Using our Self-adhesive Seals, you can create visual messages wherever you like and wherever they will generate additional attention. Possible uses range from paper bags, price tags, labels and packaging to bottles, glasses and documents – and beyond. We will be happy to stamp the Seals with your logo or a motif of your choice.

The Self-adhesive Seals are produced from a synthetic wax, developed in-house, that looks like conventional wax but offers considerably greater flexibility and resistance to breakage. According to the colour, motif and use, they help to create a very distinct, exclusive, handcrafted impression. The light stickers are also suitable for further processing by machine or for sending in or on envelopes.

Our full range can be found in our online shop.

www.erichbaumeister.com

Large selection of colours and motifs.

Lend a touch of elegance and exclusivity to invitations and similar items.

ADT String-Tying Machine

Secure tying and knotting with our Tying Machines.

A wide range of products, including bouquets of flowers, tubes, reels of cable, laundry and bundles of letters can be reliably tied using our professional ADT String-Tying Machines for Elastic String. The machines, which offer top performance whilst being simple to operate, can also be used for quickly and securely tying small or particularly delicate products, such as fresh vegetables.

The Knotting/String-Tying Machines are equipped with a start lever in the table top or a foot-operated switch. The String-Tying Machines enable tension-proof tying of any product irrespective of its height. They are particularly suitable for tying electrical wire, cable, ribbon, tubes, wire rope and numerous other products.

Our full range can be found in our online shop.

www.erichbaumeister.com

For use with a wide range of Elastic String.

Greater efficiency for product packaging.

Our ADT String-Tying Machines can be used everywhere – by craftsmen, in industry and in floristry.

ADT Tag-Tying Machine

Efficient processing of labels by hand and foot.

Using the semi-automatic ADT Tag-Tying Machine, you can produce tags quickly, efficiently and flexibly. Simply draw the punched tags through the machine by hand; the ADT Tag-Tying Machine will automatically knot the string. The device is suitable for a wide range of Elastic String, in a multitude of lengths and an array of tag sizes and layouts. Easy adjustment and operation ensure that processing pays off even for the smallest of orders.

Our full range can be found in our online shop.

www.erichbaumeister.com

Dozens of benefits: tag tying using the ADT Tag-Tying Machine

Elastic Band Buncher

Enhanced automatic bunching.

Bunching items by hand is a thing of the past: our proven Elastic Band Bunchers make it considerably easier for you to bunch together a wide variety of products and objects, saving you time and work. Simply insert the Elastic Band, let the machine stretch it and automatically position it around the product – done!

The high-quality machines made from stainless steel are operated exclusively using compressed air. For special applications designs can be customised – just talk to us.

Our full range can be found in our online shop.

www.erichbaumeister.com

Our Elastic Band Bunchers enable quicker work processes – simply and securely.

Wreath-Binding Equipment/Materials

All-round performance for all requirements.

Our Deco-300 Wreath-Binding Machine allows you to quickly and securely bind wreaths with internal diameters of at least 12 cm. The device's ease of use and stability make it a piece of cake to bind attractive Advent and decorative wreaths as well as garlands using Wreath-Wrapping Tape. A wide variety of attractive products – whether flower wreaths or wreaths for special occasions – can be designed and made using our Wreath-Binding and Wrapping Materials.

Our Wreath-Binding Machine provides you with an optimal basis for the fast and secure binding of wreaths – including straw wreaths – and garlands. We spool and cut Wreath-Wrapping Thread and Tape from a wide range of materials. We adhere precisely to the required number of metres in production and offer you short delivery times. Take advantage of our full range: we can offer you all materials required for wreath manufacturing – from string to non-woven material and synthetic thread.

Also available from us: Straw Wreath-Binding Machines for the production of straw wreaths.

Our full range can be found on our website.

www.erichbaumeister.com

Bind wreaths quickly and easily with our Wreath-Binding Machine.

Ease of use and stability.
